Camping Information:

Camping is available onsite and is available Friday, September 20th, 2024 through Sunday, September 22nd, 2024. When you register for the hunt please let them know if you are going to be staying in the camping area. We do have space for RV's along with plenty of tent camping. This area is primitive camping so please make sure to bring a generator with you for power. There will be water available onsite but we do not have a dump station.

Metal Detecting Hunt Targets:

Check out the Facebook Event Page for a complete list of all targets for each hunt. As we receive additional targets, we will be listing them on the Facebook Event Page.

Higher valued targets will have a numbered target planted instead of the actual coin or target; these numbered targets that represent a specific coin or target can be exchanged during the lunch/dinner time periods or at any time during the Midnight Metal Detecting Hunt.

Note: All non-dug Morning Metal Detecting Hunt Targets will be fair game during the Night Metal Detecting Hunt.

All seeded targets for the Morning Metal Detecting Hunt will be planted between 2” and 6” deep in the soil. Some planted targets will be on their edge and some will be on their obverse or reverse. We have used this field prior for other hunts and there is plenty of targets remaining from our previous hunts besides the targets added for the 2024 hunt.

If you are new to metal detecting, please feel free to reach out to us prior to the event so that we have one of our knowledgeable individuals help you understand your machine. If you do not have a detector already, come by and check out what is on the market currently prior to purchasing.

*The Registration fee is to help cover the cost of the targets that have been added to the Metal Detecting Hunt Field area.
